

# DANIEL COOPER for ULU Vice-President

## For a campaigning ULU leading the student movement in London

In the last two years ULU has moved in the right direction – towards outward-looking, political campaigning – but there is more to do to get the union London students need.

- **Fight fees, cuts and privatisation.** Throw ULU's weight behind the numerous local battles against cuts, fees increases and the entry of private providers, while demanding free education for all.
- **Reach out.** ULU needs to serve all its members. But I also want to build alliances with non-ULU SUs at the sharp end of fighting cuts – like London Met – and with school and FE students in London. ULU should be the centre of a powerful student movement across London.
- **Solidarity with workers' struggles.** From organising student workers, to sourcing merchandise, to supporting all workers fighting cuts, for a living wage, and for dignity and democracy at work.
- **Take back your campus!** Whether helping SUs improve participation, fighting for democratic universities or opposing police repression, ULU must lead the fight for democracy and rights in education. I want to breathe life into ULU's own democratic structures and expand our networking and training.
- **Fight for liberation.** More support for union liberation campaigns to build genuine cross-London campaigning.

### My record

I am a socialist and activist, a member of Workers' Liberty. I have been active in the student movement since sixth form.

- Royal Holloway SU President 2011-12
- Royal Holloway People & Planet president
- National Campaign Against Fees and Cuts national committee
- GMB Kingston 19 trade union branch young members' officer.

### Alex Peters-Day, LSESU General Secretary:

"Dan is committed, effective and talented as an activist and as a sabbatical officer. His passion, enthusiasm and drive are just what ULU needs and I have no doubt that he will be a great Vice-President."

- **Housing.** Decent, affordable housing is a concern for every London student – but out of reach for many. To fight soaring rents, rip-off landlords, deteriorating halls of residence and lack of council housing, I will launch a ULU campaign for decent housing for all.

- **Support for societies.** Facilitate and promote societies hosting inter-uni events. Greatly expand the number of students using ULU's facilities. More ULU presence at freshers' fayres.
